June 2016

Dear Parents/Carers,

The 4/5/6 team in 2016 are trialling Digital portfolios using the Evernote app on the iPads. The Portfolios are accessible online or via the app. We are in the process of organising access to families who don’t have internet of devices at home, so everyone will be able to access the children’s work.

Due to technical difficulties with storage, memory and upgrades, the portfolios do not contain all that your child has achieved over the semester. Further items will be added throughout Semester 2 and we are confident that the digital portfolio will constitute a thorough example of your child’s year of learning.

In the Digital Portfolio you will find samples of your child’s work for the semester. These samples provide a snapshot of your child’s learning and indicate progress made. Attached to each sample or collection of related samples is a brief outline of what the task was and the learning purpose.

**Work samples:**

There is a slight difference in the number of samples for the different teams.

Some work samples may cover more than one area, e.g. An ICT related task related to mathematics. There may also be photos to demonstrate learning.

Please take the time to share and discuss your child’s Digital Portfolio with them.

Regards,

Jeff Lyon

Principal
